

Spreader Bar for Forklifts

Spreader Bars for Forklift - ELME has been proudly operating ever since nineteen seventy four, becoming the largest independent spreader maker all-around the globe. They are a dedicated manufacturer of spreaders utilized for numerous several applications like for example the swop bodies, trailers, and handling of containers.

ELME currently employs more than a hundred and twenty five workers with all engineering is done in-house by means of utilizing all the latest FEM tools and CAD systems. Their spreaders are supplied to reach gantry, quayside, ship-to-shore cranes, stackers, straddle carriers and lift trucks all-around the world.

The ELME product series offers spreaders meant for several trailer and container handling operations. A few of their inventory include: Reach Stackers, Harbour Cranes, Lift Trucks, Straddle Carriers, Ship to Shore Spreaders, Spreaders for Rail Mounted and Rubber Tired Gantry Cranes in addition to a huge variety of attachments.

ELME manufacturing and production is done in a highly automated purpose built factory. In 2008, they made over one thousand one hundred fifty spreaders by means of utilizing high quality elements to be able to guarantee dependability and excellent standards while offering competitive prices. Major features of ELME include design simplicity, market response and ground-breaking modular spreader concept.
